プロジェクトコンセプトとその理由Concept of the project and its reason

To organize English-based seminars and make English booklets in order to:

- increase the awareness of international students regarding the job application process and working style in Japan.
- attract more international students who want to study specifically at Doshisha University and work in Japan.

プロジェクトの実施方法Implementation method of the project

1. Prepare English-based career booklets, upon approval with the Doshisha Career Center, about the job hunting process, as mentioned in (2) and the practical company advice, as mentioned in (3) and disseminate them at Doshisha University Career Center, website, and social networking platforms.
2. Collect data from international students at Doshisha University, containing the number of those interested in job hunting information in Japan
3. Coordinate with outside organizations regarding the presentation of basic tips in job hunting in Japan, such as filling job hunting entry sheet forms, SPI test techniques for applicants, preparation for interviews, etc.

4. Invite English speaking professional trainers who will discuss about the job hunting process and company internship, as mentioned in (1). Provide an incentive if necessary.
