Purpose of the Project and Reasons

Lack of information on the studies abroad

Our project

Interviews of students who went abroad and students who came to Japan to share their experience on studying abroad

Overview of the project

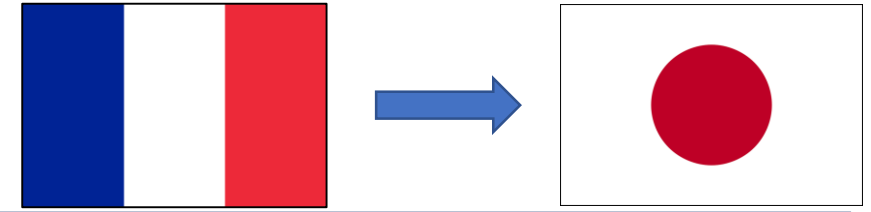

Original idea

- **Realization of pamphlets to present the partner universities**
 - ⑩ Interviews of the Japanese and international students who went to these schools
 - ⑩ Summary of the interviews and the school data in the pamphlets

Final idea

- **Video interviews of students**
 - ⑩ Students from schools for which there is few information
 - ⑩ Each student from a different university
 - ⑩ Two interviews conducted

First interview (November)

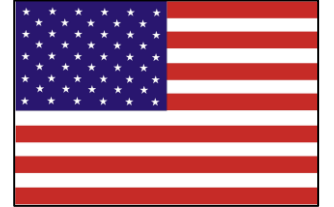

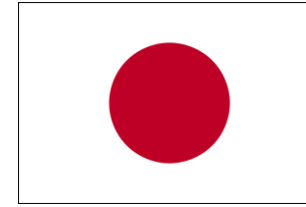

Claire, Ecole Centrale de Lille (France)

- One day to see the daily life from the residence to the school, in the laboratory and cafeteria
- Discussions about the differences between France and Japan concerning the academic life (classes, research,...) and the daily life (activities,...)

Second interview (December)

Nagano Youhei, University of California Irvine (U.S.)

- Explanation of the application process, the use of English, utilizing the skills and experiences gained there in the Japanese job hunting

そこから12時～1時に寝るという生活でした。
I would then go to bed around midnight.

Competences acquired through the project

- Obtention of information not in usual pamphlets
 - Daily life of the students
- Whole new way of thinking
 - Better understanding of different cultures
- Improvement of team work skills
 - Communication or sharing tasks between the members

Future goals of the project

- Upload of the videos on Doshisha's home page and SNS
- Sharing the information during information sessions on studying abroad
- Summarizing on pamphlets the key points of the interviews
- Sharing the pamphlets for the information to reach more students
- Realization of more videos to present other universities

Final goal

More students studying abroad from Doshisha

Thank you for your attention
