### Purpose

#### Background

There are a lot of students who are interested in study abroad but in reality, only few students study abroad.

#### Reason

Students don't collect and use a great amount of information well.

#### Purpose

To increase the student awareness for study abroad programs and related offers. To accomplish this, we decided to hold free seminars, consultation meeting and create a booklet.

### Questionnaire Results

### Satisfaction level

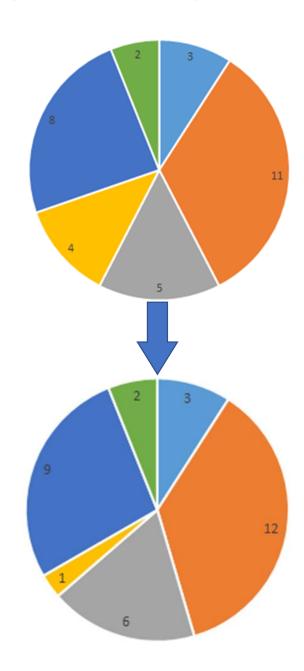

### To what degree do you want to study abroad?

Undecided

■ Unknown

### Reflection Points

• The start of the advertisement was late.

• There was a bias in the country of origin of the guest speakers at the study abroad seminars.

• The number of collected questionnaires was far smaller than that of questionnaires distributed to students.

### Improvements and Future Prospects

- More detailed information about studying abroad
  - → Holding seminars for each topic (scholarship, accommodation, ...)
- Getting an overview of various partner schools
  - ightarrow Asking students currently attending a foreign university for a live call during seminar
- More information about classes
  - ightarrow Japanese students can experience foreign classes by streaming videos of mock classes in partner schools.
- What level of language skill is required?
  - ightarrow Making a simple diagnostic test so that anyone can easily check their language skills

### Acquirement of Competences through the project

- Acquired the ability to work as a team :through the meeting once a week
- Acquired the ability to step forward
   through holding seminars and consultation meeting
   through advertising activities
- Acquired the ability to think through :through designing the poster, short-movie and booklet
